Part I - Soil Properties - Urban Card

Soil Properties	Degree of Limitation for Land Use											
	1. Buildings with Basements			2. Sewage Treatment Systems			3. Driveways and Local Roads			4. Lawns, Gardens, and Landscaping		
	Sli.	*Mod.*	*Sev.*	*Sli.*	*Mod.*	*Sev.*	*Sli.*	*Mod.*	*Sev.*	*Sli.*	*Mod.*	*Sev.*
a. Slope												
1 0-2% nearly level	1			1			1			1		
2 2-6% gently sloping	2			2			2			2		
3 6-12% sloping		3			3			3			3	
4 12-18% moderately steep			4			4			4			4
5 18-25% steep			5			5			5			5
6 25%+ very steep			6			6			6			6
b. Landform												
7 upland hill slope or foot slope												
8 upland depression or flat (includes lake plains)												
9 outwash plain/terrace												
10 flood plain												
c. Soil is subject to flooding												
11 No	11			11			11			11		
12 Yes			12			12			12		12	
d. Soil is subject to slippage or subsidence												
13 No	13			13			13			13		
14 Yes			14			14			14			14
e. Soil texture, surface												
15 Coarse (S, LS)	15					15	15					15
16 Moderately Coarse (SL)	16			16			16			16		
17 Medium (L, SiL, Si)	17			17				17		17		
18 Moderately Fine (SCL, CL, SiCL)	18			18				18			18	
19 Fine (SC, C, SiC)	19				19		19					19
f. Soil texture, subsoil												
20 Coarse (S, LS)	20					20	20				20	
21 Moderately Coarse (SL)	21			21			21			21		
22 Medium (L, SiL, Si)	22			22				22		22		
23 Modeately Fine (SCL, CL, SiCL)	23			23			23				23	
24 Fine (SC, C, SiC)			24		24		24					24
g. Soil texture, substratum												
25 Coarse (S, LS)	25					25	25				25	
26 Moderately Coarse (SL)	26			26			26			26		
27 Medium (L, SiL, Si)	27			27				27		27		
28 Modeately Fine (SCL, CL, SiCL)	28			28			28				28	
29 Fine (SC, C, SiC)			29		29		29					29
h. Soil structure, subsoil												
30 single grained			30		30				30	30		
31 granular	31			31				31		31		
32 blocky	32			32			32				32	
33 platy	33					33	33					33
34 massive	34					34	34					34
i. Drainage class (depth to water table)												
35 Well drained (more than 40 inches) or	35			35			35			35		
36 Moderately well drained (16-40) inches		36		36			36			36		
37 Somewhat poorly drained (8-16) inches		37			37			37			37	
38 Poorly/Very Poorly drained (< 8 inches)			38			38		38			38	
j. Depth to restrictive soil features												
39 Deep (> 40 inches or below bottom of pit)				39						39		
40 Moderately deep (20-40 inches)					40					40		
41 Shallow (10-20 inches)					41						41	
42 Very shallow (< 10 inches)						42						42
k. Depth to bedrock												
43 Deep (> 60 inches or below bottom of pit)	43			43			43			43		
44 Moderately deep (30-60 inches)		44			44			44		44		
45 Shallow (12-30 inches)			45		45			45			45	
46 Very shallow (< 12 inches)			46			46			46			46

Part II - Overall Degree of Limitation

1. Buildings with Basements			2. Sewage Treatment Systems			3. Driveways and Local Roads			4. Lawns, Gardens, and Landscaping
